Exploring the Best Technology for Care Workers webinar on Thursday 12th June 2025

In this joint webinar with the Care Workers Charity, we'll be exploring the role of technology in care work, focusing on identifying the most effective tools for different situations. The discussion will feature insights from frontline care workers, as well as contributions from Think Local, Act Personal (TLAP). Key topics will include how technology can enhance care delivery, improve communication, and streamline daily tasks in the care sector. Attendees will gain valuable perspectives on the latest technological advancements and practical solutions for care workers.

A Call to Action on the responsible use of AI in social care

On 27 March 2025, over 150 participants gathered for the first-ever AI Summit in Social Care, a groundbreaking event bringing together care providers, social care staff, individuals drawing on care and support, tech suppliers, local authorities, academics, national bodies, and regulators. The summit marked a significant step in the responsible adoption of Artificial Intelligence (AI) in the adult social care sector.

BLMK Local Support Organisation Data Security Protection Toolkit

Support offer

Data Security Protection Toolkit (DSPT)

The Data Security and Protection Toolkit (DSPT) helps adult social care providers in England to check and improve how they keep people's information safe. It is the official self-assessment tool for the care sector and is widely recognised by CQC, local authorities and the NHS.

Care providers must review, update and republish their toolkit assessment at least once every year, otherwise it goes out of date and it is invalid. We recommend that this is kept up to date throughout the year, especially if providers have introduced new systems or services. Providers can make changes to toolkit questions and republish at any time throughout the year. However, the toolkit does have to be published *at least* once every toolkit year. **The updated DSPT for 2024-25 is now available** – so it is a great time to complete your DSPT assessment.

Better Security, Better Care is a national and local support programme to help adult social care providers to store and share information safely. It covers paper and digital records and focuses on helping care providers to complete the Data Security and Protection Toolkit – the annual, online self-assessment.

As a care provider, the programme will help you to evaluate and improve your data and cyber security. This means you can reassure the people you support and their families, your staff, commissioners, regulators, and health and care partners, that you are following good practice – and meeting legal and regulatory requirements.

You do not have to be a data or digital expert to get support. The programme can support you – wherever you are on your data security journey.

You are not alone, and the team is here to help

All of the information can be overwhelming, it can be hard to know what you need to do. The DSPT is a great way to take a birds eye view of your policies, processes and procedures and work through it in one. You can have peace of mind that you are doing everything you can to protect people's info.

Care Groups: Check your DSPT now – you could be missing out

Calling all care groups: have you recently completed your Data Security and Protection Toolkit? Have you included all your branches and sites within your DSPT?

If not, they will not be covered by your DSPT publication.

We are aware that some large care groups have not added branches to their DSPT publication. It's an easy thing to overlook – but don't worry, it's also an easy thing to put right.

DSPT guidance videos

We have added two videos to the DSPT online guidance:

This is a quick guide to registering and publishing the DSPT for care groups with multiple sites.

[DSPT for multi-site organisations](#)

How to publish or republish, and share your DSPT assessment with staff, Care Quality Commission inspectors, commissioners, people drawing on your services and family carers.

DSPT video guides

Digital Care Hub have updated the DSPT guidance to include videos on answering DSPT questions. You can see these in each section. As you will see, the videos cover a group of questions on a related topic - such as data protection policies and privacy notices - rather than one video per question. We hope this enables care providers to understand the connections between questions.

You can view the videos under Answer DSPT

questions: <https://www.digitalcarehub.co.uk/dspt/answer-dspt-questions/>

We do hope that the revised guide helps you to complete your DSPT, but if you need more support, please contact SCHHServicedevelopment@centralbedfordshire.gov.uk

Webinars coming up

Using the DSPT for the first time

This webinar is for care providers who have never used the DSPT before. It will cover how to:

- Register for the DSPT – including how to register if you have multiple services and sites.
- Complete to Approaching Standards and Standards Met
- Publish your DSPT standard
- Access free, official support from the Better Security, Better Care programme.

Review & republish your DSPT

Because things change, you need to review and republish your toolkit every year so that it reflects your current data and cyber security arrangements. For example, you may have introduced new staff, data systems, technology or services – which in turn will impact on how you manage your information.

This webinar is for care providers who have published before and are reviewing and republishing their DSPT. It will cover what has changed within the Toolkit for 2022/23, as well as how to:

- Login to your DSPT account
- Review your DSPT – including what is different if you were previously published at Entry Level or Approaching Standards
- Complete to at least Standards Met
- Publish your DSPT standard
- Access free, official support from the Better Security, Better Care programme.

Dates include:

- 11th April 11.00hrs – 12.30hrs
- 25th April 11.00hrs – 12.30hrs
- 2nd May 11.00hrs – 12.30hrs
- 9th May 11.00hrs – 12.30hrs

Completing the Data Security and Protection Toolkit for the first time

The Data Security and Protection Toolkit (DSPT) is an online self-assessment tool to help adult social care providers in England to store and share information safely. It shows you what you need to do to keep people's information safe, and to protect your business from the risk of a data breach or a cyber attack. It covers both paper and digital records.

It also reassures everyone you work with that you are taking data security seriously, which in turn can open up access to NHSmail and shared records systems such as GP Connect and proxy access. Care providers must have an up-to-date DSPT in place to

meet NHS contracts – and local authorities and CQC inspectors increasingly expect you to have it.

Care providers should complete the toolkit at least once a year.

It will cover how to:

- Register for the DSPT – including how to register if you have multiple services and sites
- Complete to Approaching Standards and Standards Met
- Publish your DSPT
- Access free, official support from the Better Security, Better Care programme
