Data Security & Protection Toolkit Workshop

We are holding a free Data Security & Protection Toolkit face to face workshop to help you from start to finish.

Ever thought “I’m not sure how to complete the Data Security & Protection Toolkit”? Or “I would do it, I just need some guidance” ... We are here to help!

The DSPT is officially recognised by the CQC and local authorities and is increasingly being used in their inspections. It is also a requirement if you have services funded by the NHS, for example under continuing healthcare. This user-friendly self-assessment tool that has been constructed with Adult Social Care Providers will help ensure your company’s personal and service user data is better protected.

The DSPT can also support you in accessing other opportunities e.g. NHSmail, Proxy Access and Digital Social Care Record (DSCR or also known as an electronic care planning system)
